NEW SEED MOISTURE METER (GMK-503S)

1. Description of the Instrument

Grinding Handle

Seed Select Buttons

Measure Button
Average Button

〈Sample Tray〉

2. Before Measurement

- Place 1.5V batteries 4EA into battery compartment (Back side).
- If [s 503] sign displays on LCD and then disappears, the instrument is ready to measure (in normal condition).

3. Measurement

- Fill Sample Tray with some test samples by using Spoon (with Tweezers).
- Put Sample Tray into the instrument.
- After turning Grinding Handle right to the end, choose the same Seed Select Button as a Sample.
- Press Measure Button, and moisture content appears on LCD for about 1 min..

[Notice]

- The Instrument turns off automatically around 2 min. later when there is no other operation.
- When [▬▬] displays, please change batteries shortly.
- When the moisture content is out of measuring ranges, [Er H] or [Er L] sign appears.

4. Average Data

- Average data (up to 9 times) is available by pressing Average Button.

[Notice]

- Please press Average Button before measurement to erase the previous data.
- The Power is off when pressing Average Button two times continuonsly.

5. Keeping

- Keep the Instrument in a cool place.
- Clean the Instrument after measurement.

6. Battery

⚠️ In case of no use for a while, please remove batteries.

7. Warranty

- The manufacturer grants a total replacement of warranty of 12 months from the date of purchase.
- In case of wrong use, abuse or misuse, warranty is not granted.
