Temporary Holding

ALL TESTS PASSED

- Continuous durability test 30,000 times
- Tensile test
- Salt water spraying
- Heat aging
- Electrical resistance
- Vibration fatigue

Temporary holding function

Cables can be inserted smoothly into terminals due to the deformless temporary holding function.

Tsunoda

*Temporary holding function is not loaded on TP-2

Both side colored size marks

Colored size marks help you to check the size of crimping die even in the room where is insufficiently lighted and improve your work efficiency.

Toggle mechanism

Reducing required loads for each stroke of gear.

Crimp completion checking function

Handles don't open until crimping done.

Clear crimped mark!

Safety strap holes

Molded elastomer resin cover

Soft texture elastomer grip reduces fatigue of Continuous crimping works.
